**Thursday, 01. February, 16:00**

**Digital Planetarium: Dinosaurs at Dusk**

A learning adventure of a father and his teenage daughter Lucy, who share a fascination for all things that fly.

[> more](#)

**Thursday, 01. February, 15:00**

**Digital Planetarium: Life - A Cosmic Story**

How did life originate on Earth? To answer this basic question the show begins in a redwood forest, with the sounds of wind and life. [> more](#)

### **Thursday, 01. February, 14:00**

#### **Digital Planetarium: Fragile Planet**

FRAGILE PLANET gives audiences an astronaut's view of Earth, highlighting Earth's unique regions. [> more](#)

### **Thursday, 01. February, 17:00**

#### **Digital Planetarium: Supervolcanoes**

The scene was 74,000 years ago, on the island of Sumatra. A volcanic eruption triggered the sudden and violent collapse of a vast regional plateau. [> more](#)

### **Thursday, 01. February, 17:00**

#### **NASA's Parker Solar Probe**

The first-ever mission to touch the sun

A lecture by Dr. Elsayed Talaat

[> more](#)

### **Friday, 02. February, 16:00**

#### **Digital Planetarium: Dinosaurs at Dusk**

A learning adventure of a father and his teenage daughter Lucy, who share a fascination for all things that fly.

[> more](#)

### **Friday, 02. February, 14:00**

#### **Digital Planetarium: Dynamic Earth**

Now in more than 70 planetariums worldwide, DYNAMIC EARTH explores the inner workings of Earth's great life support system: the global climate. [> more](#)

### **Friday, 02. February, 17:00**

#### **Digital Planetarium: Life - A Cosmic Story**

How did life originate on Earth? To answer this basic question the show begins in a redwood forest, with the sounds of wind and life. [> more](#)

### **Friday, 02. February, 15:00**

## **Digital Planetarium: Phantom of the Universe**

IN GERMAN

An entertaining and educational fulldome experience describing the exciting exploration of dark matter. > [more](#)

**Saturday, 03. February, 16:00**

## **Digital Planetarium: Dinosaurs at Dusk**

A learning adventure of a father and his teenage daughter Lucy, who share a fascination for all things that fly. > [more](#)

**Digital Planetarium: From Earth to the Universe**

This show is an entertaining and educational fulldome experience for the whole family.

From Earth to the Universe takes the audience on a fascinating journey into the unimaginable vastness of space, beyond the edge of the Milky Way to myriads of far-away galaxies. Besides showing the ferocity of the scorching sun and the colorful birthplaces and burial grounds of stars, the film strikingly demonstrates how far humanity's ambition has taken us in terms of observing and understanding the universe: The audience will learn about the history of astronomy, the theories of the ancient Greek astronomers, the invention of the telescope, and today's giant telescopes that allow us to continue to probe ever deeper into the universe. [> more](#)  
This show is an entertaining and educational fulldome experience for the whole family.

**Digital Planetarium: Origins of Life**  
ORIGINS OF LIFE deals with some of the most profound questions of life science: the origins of life and the human search for life beyond Earth. Starting with the Big Bang, in chronological order, the show deals with the prebiotic chemistry in the Universe, the formation of stars, formation of solar systems, and the first life on Earth.
